

# LED Highbay Light

Zero-7 Series

**NHB307**

NVC's LED Highbay set the industry standard with energy efficiency and durability for the longest-lasting performance in a wide range of industrial applications.

## Product Benefits

- Extremely durable, waterproof and impervious to dust
- Uniform light with precision control
- Intelligent light and dimmable module
- Sensor: Microwave (standard)/ Bluetooth (customized)/ ZigBee (customized)

# NHB307

Ultra-slim dimmable highbay lights with the choice of sensor and light shield

Sensor:  
Microwave (standard)  
Bluetooth (customized)  
ZigBee (customized)

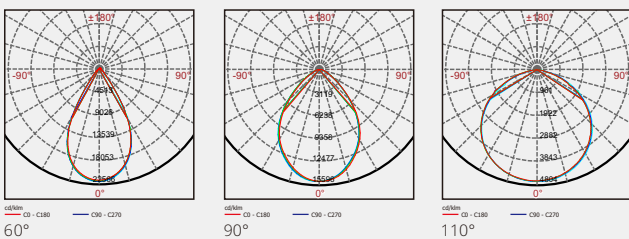

### TECHNICAL DETAILS

- SMD LEDs
- CRI >80
- PF >0.95
- IP65
- IK08
- CCT 4000K and 6500K
- Efficiency up to 140 lm/W
- Operating temperature: -20°C to 50°C

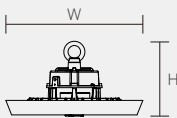

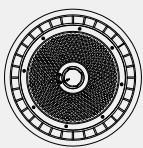

### APPLICATIONS

- Warehouses
- Exhibition halls
- Sports facilities
- Industrial manufacturing areas

### FEATURES

- Die-cast aluminium body
- Ultra-slim design and light weight structure
- Choice of PC or aluminium light shield
- Sensor: fitted with a Microwave sensor. Bluetooth and ZigBee sensors are available to be ordered as customized version
- Optional DC12V supplemental power supply
- Suitable for suspension wire (installation chain included), suspension hook, suspension rod and wall installation (U-type installation bracket included)
- 0-10V dimmable remote LED driver

Watts	W	H
